Section for Microbial & Chemical Ecology

Section for Synthetic Biology

Section for Protein Science & Signaling Biology

Bacterial Ecophysiology and Biotechnology

Fungal Chemodiversity

Fungal Degradation

Infection Microbiology

Microbial Community Engineering

Metabolic Signaling and Regulation

Genetics and Physiology of Lactic Acid Bacteria

Natural Product Discovery

Bacterial Interactions and Evolution

Chemical Microbiology

DTU Metabolomics Core

Network Engineering of Eukaryotic Cell Factories

Eukaryotic Molecular Cell Biology

Fungal Biomedicine and Biology

Biosynthetic Pathway Engineering

Photosynthetic Cell Factories

Regulatory Genomics

Tropical Pharmacology and Biotherapeutics

DTU Fermentation Core

Disease Systems Immunology

Enzyme and Protein Chemistry

Protein Glycoscience and Biotechnology

Protease Network Degradomics

DTU Proteomics Core
